# AutoAdmin™ for Act!

**Award-winning unattended backup and maintenance for ACT!**

**Can you recover your ACT data quickly if you have a hard drive failure or data corruption?**

**Are you sure your employees are backing up their valuable ACT! databases?**

**Is your ACT! data maintained and optimized regularly?**

**Want to ensure your ACT! data is securely backed up offsite in case you have problems with your computer or server?**

**AutoAdmin™ is the award-winning unattended backup and maintenance software that ACT! administrators, ACCs, and users worldwide have counted on for years to ensure their ACT! data is safe and healthy.**

## KEY FEATURES:

- ◆ **Automatically runs backup and maintenance tasks on a schedule you control.**
- ◆ **Back up multiple databases on your network or to a secure offsite FTP server.**
- ◆ **Send activity log files and error alerts after every backup.**
- ◆ **Re-index databases automatically to maintain optimal performance.**
- ◆ **Launch other programs automatically including MergeAdmin for nightly imports into the database.**
- ◆ **Handles zip files larger than 4GB.**

**AutoAdmin is your “unattended assistant” that automatically backs up and maintains your ACT! data. Back-up locally and/or to an offsite FTP server.**

AutoAdmin for ACT! effortlessly backs up and maintains all your ACT! data on a schedule you control, so you know you're protected from disastrous data loss and costly interruptions.

In just a few minutes, you can have peace of mind knowing your workgroup and remote ACT! data is securely backed up on a regular schedule that requires no user intervention. Every morning you'll get a brief email message confirming that all your valuable databases were backed up and tuned up, so you'll always know your data is safe and healthy!

If ACT! is open and active, AutoAdmin runs in the background so you and your team don't have to stop what you are doing. Large workgroup databases can be maintained and backed up after hours. For extra reliability, backups can be saved offsite to your password-protected FTP server with no extra effort.

AutoAdmin is the most powerful and effortless tool for making sure you can recover quickly from data disasters.

# AutoAdmin™ for ACT!

**Award-winning unattended backup and maintenance for ACT!**

**Be alerted when a problem occurs so you can take action!**

## KNOW THAT YOUR DATA IS SAFE AND HEALTHY

Get email alerts when backup or maintenance errors occur to make sure you know that your data is always backed up. Automatically send activity log files after every session to the ACT! administrator and other users if needed. Check the status of each event to see the last time it was run successfully.

## RUN ADMINISTRATION TASKS AUTOMATICALLY

Easily manage scheduled events for backup, maintenance and other tasks by marking them as active or inactive. Create up to 1,440 scheduled events that run automatically without user intervention. Schedule and run external applications, such as custom applications or other ACT! Add-on software programs.

## RELIABLE UNATTENDED BACKUP OF ALL YOUR ACT! DATA

AutoAdmin supports backups larger than 4GB. Create individual scheduled events to run unattended backups or maintenance at any time of day or night. Back up ACT! data including contacts, companies, opportunities, notes, histories, document attachments, templates, report layouts and user information. Back up multiple workgroup or stand-alone databases on your network, with options to save each backup to different locations. Back up ACT! data even when ACT! is open and active, allowing you to continue working while AutoAdmin is backing up your data. Save time backing up large databases (more than 10,000 contact records) by running the backup after hours. Automatically create backup files with unique names identifying databases and date. Customize the number of backup archives to save hard drive space. Quickly restore from backups when you have problems with your ACT! database.

## EASY AND SECURE OFFSITE BACKUP

Automatically back up any database to an offsite FTP server (remote data storage on a web server) to ensure your data is quickly recoverable if you have problems with your company server or personal computer. Supports password-protected login for secure access to your FTP site. Supports 'passive mode' for accessing FTP sites using firewalls.

## AUTOMATIC DATABASE MAINTENANCE

Automatically 're-index' your ACT! database to keep it performing optimally. Remove old and unnecessary data automatically, such as histories, cleared activities, and old opportunities by custom date ranges. Remove Windows Temp files to maximize hard disk space on your computer. Maintain multiple databases with different settings for each database.

## SYSTEM REQUIREMENTS

- ◆ ACT! (installed on same PC, network workstation or network server).
- ◆ Network access to the location of the workgroup or remote ACT! data files with login names and passwords.
- ◆ Sufficient hard disk space to store your backup files.
- ◆ ACT! v17 or higher

## CUSTOMER TESTIMONIALS

"Your incredible product is not only a time saver but a life saver. Our ACT! server crashed on us and thanks to AutoAdmin we had a copy from earlier that day that backed up on our network... I took that backup and we were back up and running in less than 10 minutes."

**- Mykul Bolick, Tulsa OK**

"Simply the best solution for backing up and maintaining a database. Well worth the price for ACT! users and sys admins who want a good night's sleep."

**- Stewart Oberman, San Francisco CA**

## OTHER GREAT ACT! ADD-ONS FROM ASDS COMPUTER

AutoLimited Access - Automatically and accurately control limited access at the point of data entry!

DocAdmin - Scan and attach hard copy documents as PDFs in ACT!

FaxAdmin - Fax directly out of ACT!
